Purchase when returning the old part, we will ship the goods after you deliver the old catalytic converter. The delivered part must be complete, original, marked with OE number, and must not have mechanical damage and signs of tampering. We do not accept cash on delivery.

We offer a catalytic converter regeneration service, which involves replacing the insert with a new one. The insert we use meets EURO 6 emissions standards and effectively eliminates the “low catalytic converter efficiency” error code. The metal-core insert is significantly more durable than the original ceramic one, and its 600 cpsi density accurately matches the factory flow rate, ensuring optimal engine power.
