

Gasoline catalytic converter core AWG

Product codes:

Reference: STANDARD

EAN13: -

Product features:

Catalyst application: Gasoline
Cartridge type: Standard
Cartridge material: Metal
Producer: AWG Polonez

Product attributes:

euro standard: Euro 2, Euro 3, Euro 4, Euro 5, Euro 6, No standard
Inlet diameter: 85 mm, 90 mm, 95 mm, 100 mm, 105 mm, 110 mm, 115 mm, 120 mm, 125 mm, 130 mm, 135 mm, 140 mm, 80 mm, 145 mm, 150 mm, 160 mm, 170 mm, 109 mm, 114 mm
Insert length: 100 mm, 80 mm, 140 mm, 50 mm, 60 mm
Capacity (cpsi): 400, 500, 600, 900

Product description:

Universal metal catalytic converter insert for welding into the housing (manifold). Compatible with gasoline engines and LPG systems.

Catalytic converter, depending on the selected configuration, meets the requirements of the European Directive:

- Euro 2 Directive 94/12/EC, 96/69/EC for passenger cars, effective from 1996.
- Euro 3 Directive 98/69/EC [12] for all vehicles, effective since 2000.
- Euro 4 Directive 98/69/EC, 2002/80/EC for all vehicles, effective from 2005
- Euro 5 Directive 2007/715/EC[13] for light passenger and company cars. Effective from 2009.
- EURO 6 Commission Regulation (EU) No. 459/2012. Effective from 2014.

Manufacturer's warranty: 12 months or 50,000 km.

The catalytic converter cartridge is selected based on the emission standard it is supposed to meet and its dimensions. Unfortunately, no catalog gives the dimensions of the cartridge, because theoretically it is a non-interchangeable part, so in order to properly select the cartridge you need to measure the diameter and length of the catalytic converter housing. Then subtract the thickness of the wall of the catalytic converter housing, since the cartridge is located inside the housing. For example, when the catalytic converter housing has a diameter of 120 mm, a cartridge with a diameter of 115 mm would be suitable.
