

Sport catalytic converter 0.7-2.5 - RFC

Product codes:

Reference: KS11

EAN13: -

Product features:

Inlet pipe diameter: 63,5 mm
Capacity (cpsi): 200 cpsi
Cartridge type: Sport
Cartridge material: Metal - type S
Producer: RFC
Total length: 300 mm
Catalyst diameter: 112 mm
Engine capacity: 0.7-2.5L
Shape of the catalyst: round
Heat shield: Yes

Product attributes:

euro standard: Euro 2, Euro 4, Euro 5
Capacity (cpsi): 200

Product description:**Sport catalytic converter with thermal shield.**

It is constructed from stainless steel S409 with a metal S-type insert featuring 3 cores for enhanced performance and durability.

Compatible with gasoline, diesel engines, and LPG installations. When installed in parallel, it supports engine capacities up to 5 liters.

Product features:

- Constant resistance to temperature of 1100°C
- Momentary resistance to temperature of 1150°C
- The thermal shield, made of stainless steel S304, it serves as a crucial component in the automotive catalytic converter system. Its primary function is to provide the protection against overheating even in extreme conditions such as high ambient temperatures or intensive engine operation.

Depending on the selected configuration, the catalytic converter complies with the requirements of European directives:

- EURO 2 Directive 94/12/EC, 96/69/EC for passenger cars, applicable since 1996.
- EURO 4 Directive 98/69/EC, 2002/80/EC for all vehicles, applicable since 2005.
- EURO 5 Directive 2007/715/EC for light passenger and commercial vehicles. Applicable since 2009.

Manufacturer's warranty: 12 months or 50,000 km.
