

## Catalytic converter Porsche Cayenne S 4.8L 2014

### Product codes:

Reference: REG-CAYENNE-S

EAN13: -

---

**Product features:****Product attributes:****Product description:****Remanufactured Porsche Cayenne S 4.8L 2014 EURO 5 - 500 cpsi****Model list:**

- Porsche Cayenne (92A) 4.8 S (M 48.02) 4806ccm 400hp/294kW 2010-
- Porsche Cayenne (9PA) GTS 4.8 (M 48.01) 4806ccm 405hp/298kW 2007-2010

**The subject of the offer is a catalytic converter remanufacturing service, which involves welding a new metal insert into the original housing.**

The insert has dimensions of 110/100 mm, which have been optimally adapted to the Porsche Cayenne S 4.8L model, both in terms of diameter and length. The cartridge meets EURO 5 emission standards, which guarantees compliance with current emission regulations.

The universal catalytic converter cartridge used in this remanufacturing features a capacity of 500 cpsi (cells per square inch). As a result, it provides a balance between high efficiency and meeting stringent emission standards. It's the perfect solution for customers who are looking for a compromise between their vehicle's performance and environmental concerns.

**We do the regeneration in one day and send you back the catalytic converter ready for installation. Send the catalytic converter to us by filling out the form:**

<https://kat-eko.com/pl/content/6-regeneracja-katalizatorow>

Don't forget to also fix the cause of faster cartridge wear, if it has worn out faster than standard the cause may be oil or fuel entering the exhaust system. If you have a gas system installed and in addition it is not too well adjusted it also contributes to faster wear of the original ceramic cartridges, which are not resistant to the higher temperature of gas combustion.

**If you feel up to it, you can also replace the cartridge yourself, which is available at the link below:**
