

## QCAT sport catalytic converter core

### Product codes:

Reference: 101326

EAN13: -

---

**Product features:**

Capacity (cpsi): 200 cpsi  
Cartridge type: Sport  
Cartridge material: Metal - type S  
Producer: QCAT

**Product attributes:**

euro standard: Euro 4, Euro 5, Euro 6  
Inlet diameter: 100 mm, 110 mm, 120 mm, 130 mm, 140 mm, 150 mm  
Insert length: 100 mm  
Capacity (cpsi): 200

**Product description:**

Style metal catalytic converter cartridge with 3 cores for increased performance and durability. Compatible with gasoline engines, diesel engines and LPG systems. The 200cpsi flow rate is the golden mean between performance and exhaust aftertreatment efficiency. They are ideal for tuning - sporty performance without harming the environment.

- Permanent temperature resistance **1100 °C**
- Temperature resistance **1150 °C**

**Depending on the selected configuration, the catalyst meets the requirements of the European directive:**

- Euro 4 Directive 98/69/EC, 2002/80/EC for all vehicles, effective from 2005.
- EURO 5 Directive 2007/715/EC[13] for light passenger cars and company cars. Valid since 2009.
- EURO 6 Commission Regulation (EU) No. 459/2012. Effective 2014

**Manufacturer's warranty: 12 months or 50,000 km.**

The catalytic converter cartridge is selected based on the emission standard it is supposed to meet and its dimensions. Unfortunately, no catalog gives the dimensions of the cartridge, because theoretically it is a non-interchangeable part, so in order to properly select the cartridge you need to measure the diameter and length of the catalytic converter housing. Then subtract the thickness of the wall of the catalytic converter housing, since the cartridge is located inside the housing. For example, if the catalytic converter housing has a diameter of 110 mm, a cartridge with a diameter of 105 mm would be suitable.
