

Regenerated catalytic converter Alfa Romeo GT II 2.0 JTS 16V

Product codes:

Reference: REG/BM91342H

EAN13: -

Product features:

Cartridge material: Metal - type S
Producer: OE
Engine capacity: 2.0 JTS
Year of production: 2003-2010 EURO 5
Horsepower: 165 HP
OE number: BM91342H
Product type: Regenerated
Engine code: 937CXH1A, 937CXH11
Warranty: 12 months

Product attributes:

euro standard: Euro 5
Deposit: With the return of the old part

Product description:

WITH TRADE-IN OF OLD PART

Purchase with trade-in of old part – we ship the item after receiving the old catalytic converter. The part must be complete, original, marked with an OE number, and free of mechanical damage or signs of tampering.

If you're not sure whether the catalytic converter fits your car, contact us via [contact form](#) and provide your VIN number, which will speed up the verification process.

Catalytic converter regeneration involves replacing the worn-out insert with a new metal one, restoring the system to full efficiency and meeting EURO 5 emissions standards. The regeneration process uses high-quality metal inserts with a flow rate of 400 cpsi, matching the original specifications. Thanks to these inserts, no errors occur in the engine control unit. In rare cases, however, it may be necessary to manually clear the error using computer diagnostics, which is a standard procedure after replacing exhaust system components.
