

Regenerated catalytic converter Honda Civic 1.8 i-VTEC 2015 - EURO 6

Product codes:

Reference: REG-CIVIC-1.8

EAN13: -

Product features:

Product attributes:

Product description:

Regenerated catalytic converter for 2015 Honda Civic 1.8 i-VTEC - EURO 6 / 600 cpsi.

List of models:

- Honda Civic 1.8 i-VTEC (FK2) (R18Z4) 1798ccm 141HP/104kW 2012-2016
- Honda Civic 1.8 i-VTEC (FK2) (R18Z4) 1798ccm 141HP/104kW 2014-2016

The subject of the offer is the regeneration of the catalytic converter by welding new metal inserts into the original housing.

The dimensions of the inserts (125/80 and 125/60 mm) have been optimally adapted to the Honda Civic in terms of diameter and length. It meets EURO 6 and EURO 4 emission standards. The universal catalytic converter cartridges used have a capacity of 600 and 500 cpsi. The universal catalytic converter cartridge is an ideal solution for customers looking for a balance between performance and compliance with emission standards.

The cartridge was manufactured by the renowned AWG Polonez company and has all the necessary approvals. In addition, we offer a warranty for a period of 12 months or 50,000 km mileage.

Regeneration we do in one day and send you back the catalytic converter ready for installation. Sending the catalytic converter to us, fill out the form:

Don't forget to also fix the cause of faster cartridge wear, if the cartridge has worn out faster than standard the cause could be oil or fuel entering the exhaust system. If you have a gas system installed and in addition, it is not adjusted too well, it also contributes to faster wear of the original ceramic cartridges, which are not resistant to the higher temperature of gas combustion.

If you feel up to it, you can also replace the cartridge yourself, which you can buy from the link below:
