

Regenerated catalytic converter Opel Astra K 1.6 200KM 2018

Product codes:

Reference: REG-OPEL-ASTRA

EAN13: -

Product features:**Product attributes:****Product description:****Regenerated catalytic converter Opel Astra K 1.6 200HP 2018 EURO 6 without GPF**

The subject of the offer is the regeneration of the catalytic converter consisting of welding new metal inserts into the original housing.

The size of the insert (125/100 mm) was optimally matched to the Opel Astra K in terms of diameter and length. It meets EURO 6 emission standards. The universal catalytic converter cartridge used has a capacity of 600 cpsi. Universal catalytic converter cartridges are the ideal solution for customers looking for a balance between performance and compliance with emission standards.

The cartridge was manufactured by the renowned RFC company. In addition, we offer a warranty for a period of 12 months or 50,000 km of mileage.

We do the regeneration in one day and send you back the catalytic converter ready for installation. Sending the catalytic converter to us, fill out the form:

Also don't forget to fix the cause of faster cartridge wear, if it has worn out faster than standard the cause may be oil or fuel entering the exhaust system. If you have a gas system installed and in addition, it is not adjusted too well, it also contributes to faster wear of the original ceramic cartridges, which are not resistant to the higher temperature of gas combustion.

If you feel up to it, you can also replace the cartridges yourself, which you can buy from the link below:
