

Regenerated catalytic converter BMW M5 G30 F90 Sedan 4.4 V8 600KM 2019

Product codes:

Reference: REG-BMW-M5-F90

EAN13: -

Product features:**Product attributes:****Product description:****Regenerated catalytic converter BMW M5 G30 F90 Sedan 4.4 V8 600HP 2019 EURO 6**

The subject of the offer is catalytic converter regeneration consisting of welding new metal inserts into the original housing.

The dimensions of the inserts (130/100 mm) have been optimally matched to the BMW M5 F90 in terms of diameter and length. They meet EURO 6 emission standards. The sport catalytic converter cartridges used have a capacity of 200 cpsi. Sport catalytic converter cartridges are the ideal solution for customers looking for a balance between performance and compliance with emission standards.

The cartridges have been manufactured by the renowned RFC company. In addition, we offer a warranty for a period of 12 months or 50,000 km mileage.

We do the regeneration in one day and send you back the catalytic converter ready for installation. When sending the catalytic converter to us, fill out the form:

<https://kat-eko.com/pl/content/6-regeneracja-katalizatorow>

Also don't forget to fix the cause of faster cartridge wear, if it has worn out faster than standard the cause may be oil or fuel entering the exhaust system. If you have a gas system installed and in addition, it is not adjusted too well, it also contributes to faster wear of the original ceramic cartridges, which are not resistant to the higher temperature of gas combustion.

If you feel up to it, you can also replace the cartridges yourself, which you can buy from the link below:

2x
