WITHOUT DEPOSIT

Purchase with return of the old part – the item is shipped after we receive the old catalytic converter. The unit must be complete, original, marked with the OE number, and free from mechanical damage or signs of tampering. We do not accept cash-on-delivery (COD) shipments.

The ceramic coating in the original remanufactured catalytic converter provides high temperature resistance and optimal conditions for catalytic processes. Thanks to the capacity of the RFC cartridges and the use of S-type cartridges with three cores, the catalytic converter features enhanced performance and durability. In addition, the ceramic structure improves exhaust gas flow, which promotes more effective emissions cleaning and increases the overall efficiency of the exhaust system.
