

Regenerated catalytic converter Land Rover Range Rover 5.0 530KM 2020

Product codes:

Reference: REG-RANGE-ROVER

EAN13: -

Product features:**Product attributes:****Product description:****Regenerated catalytic converter Land Rover Range Rover 5.0 530HP 2020 EURO 6**

The subject of the offer is catalytic converter regeneration consisting in welding new metal inserts into the original housing.

The dimensions of the inserts have been optimally matched to the Range Rover 5.0 in terms of diameter and length. They meet EURO 6 emission standards. The universal catalytic converter cartridges used have a capacity of 600 cpsi. Universal catalytic converter cartridges are an ideal solution for customers looking for a balance between performance and compliance with emission standards. The price includes replacement of the catalytic converter cartridges on the left and right side, replacement of the GPF in the rear was not necessary due to their good condition.

The cartridges were manufactured by the renowned AWG company. In addition, we offer a warranty for a period of 12 months or 50,000 km of mileage.

We do the reconditioning in one day and send you back the catalytic converter ready for installation. Sending the catalytic converter to us, fill out the form:

Also don't forget to fix the cause of faster cartridge wear, if it has worn out faster than standard the cause may be oil or fuel entering the exhaust system. If you have a gas installation and, in addition, it is not too well adjusted, it also contributes to faster wear of the original ceramic cartridges, which are not resistant to the higher temperature of gas combustion.
