

Universal DPF SiC filter element (silicone)

Product codes:

Reference: KS2DPF001-1

EAN13: -

Product features:

Cartridge material: Silicone
Producer: RFC
Application: Diesel

Product attributes:

Inlet diameter: 183 mm
Insert length: 150 mm
Capacity (cpsi): 300

Product description:

The SiC (silicon) DPF filter ideal for a wide range of diesel vehicles. Its silicon carbide cartridge provides extreme thermal resistance, withstanding temperatures up to 1,400°C, ensuring reliability even in the harshest operating conditions. The metal housing guarantees easier installation in the original DPF filter.

Manufacturer's warranty: 12 months or 50,000 km.
