

Regenerated catalytic converter VOLVO V90 Cross Country

Product codes:

Reference: REG/31439599

EAN13: -

Product features:

Cartridge material: Metal
Producer: OE
Engine capacity: 2.0
Year of production: 2017-2022 EURO 6
Horsepower: 163, 197, 249, 250, 254, 310, 320, 341 HP
OE number: 31697451, 31439545, 36012665, 31439599, 31439600
Product type: Regenerated
Engine code: B4204T20, B4204T23, B4204T26, B4204T27
Warranty: 12 months

Product attributes:

euro standard: Euro 6
Deposit: With the return of the old part, Without returning the old part

Product description:**WITHOUT RETURNING THE OLD PART**

Purchase without returning the old part - we ship the goods immediately. You can return your old catalytic converter within 30 days of purchase and receive a refund of your deposit. The delivered part must be complete, original, marked with the OE number, and must have no mechanical damage or signs of tampering.

WITH THE RETURN OF OLD PART

Purchase with the return of the old part - we ship the goods after the delivery of the old catalytic converter. The part must be complete, original, marked with the OE number and have no mechanical damage or signs of tampering.

If you are not sure if the catalytic converter fits your car, contact us via [contact form](#) and provide the VIN number, which will speed up an accurate verification.

We offer a catalytic converter regeneration service, which is the replacement of the cartridge with a new one. The cartridge used meets EURO 6 emission standards and effectively eliminates the error of low efficiency of the catalyst. The metal-core cartridge is much more durable than the original ceramic one, and the density of 600 cpsi faithfully reflects the factory capacity, guaranteeing optimal engine power.

If the remanufactured catalytic converter has a working original rear insert, only the front one is replaced - it is the one responsible for the appearance of the catalytic converter error. The rear part remains unchanged, provided it is complete and mechanically undamaged. In the case of a purchase with a deposit, when returning the old catalytic converter, it is required that the rear cartridge is intact - without cracks, cavities or other damage. If it turns out to be damaged, the deposit may be

reduced or not returned, depending on the degree of damage.
