muffler/resonator - 1294910601

Product codes:

Reference: BMW-SIL-001

EAN13: 5905601236221

Product features:

Producer: Boysen
Engine capacity: 2.8 l
Vehicle brand: BMW
Year of production: 1979–1987
Horsepower: 184 HP
OE number: 18121178377, 18121178377
Engine code: M30 B28 (inline 6-cylinder gasoline engine)
Start-up warranty: 30 days
Status: New

Product attributes:**Product description:****Middle muffler fits vehicles:**

- BMW 5 (E28) 528i: vintage 1981-1987, engine M30 B28 (286EA), capacity 2.8L, 184 hp.
- BMW 6 (E24) 628 CSi: vintage 1979-1987, M30 B28 engine, capacity 2.8L, 184 hp.

Boysen center muffler – original BMW production (OEM), identical to the one factory-installed in vehicles of this brand. Made of high-quality materials, precisely matched to the BMW exhaust system, it ensures full compatibility, proper sound attenuation, and durability in accordance with the manufacturer's standards. The offered item is completely new and fully functional.

The center muffler is coated with a special black ceramic coating that is resistant to high temperatures and minor mechanical damage. This coating provides better thermal resistance and longer muffler life by protecting it from corrosion and external factors. In addition, the ceramic coating reduces heat transfer to adjacent components of the exhaust system and chassis, which improves the safety and stability of the entire system.
